

KRB[®] S.R.L.
ENGINEERING & TECHNOLOGY

COMPANY

KRB Ltd was formed in 1996 and inserted into the air conditioning system development market offering innovative technologies.

The high profile of its staff, which integrates highly experienced and competent specialists, consents to giving solutions to most diverse technical problems.

Our main activity is air treatment (heating, air conditioning, de-humidification, ventilation, air clearing) for residential and civil structures and industrial plants.

The demands of our partner companies, during these years directed more exporting technologies into foreign markets, has allowed us collaborating with some of the largest and most prestigious groups in the sector, including cross-sector trend applications, from clothing to oil and gas.

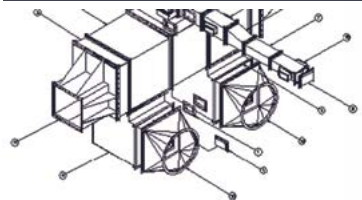

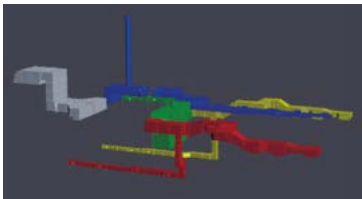

The constantly increasing market requirements, relevant to EPC 'turnkey' solutions (which has kept the Company engaged in consulting, design, material supply, installation specialist provision), allowed developing further in electrical, security and fire safety sectors, as well as in renewable energy sector, specifically in photovoltaic panel applications.

The possibility to work outside the national territory has extended skills and abilities of our staff above the strictly and purely system development sector, contributed to our knowledge and competence and permitted specializing also in consulting on all those auxiliary services, which are however of fundamental importance, including, but not limiting to logistics activities for transportation and customs clearance.

Nowadays KRB Ltd can offer its customers a comprehensive package of services dedicated to different system problem solutions, completed and designed specifically for the jobs to be performed.

TECHNICAL Services

- Specific system solution analysis
- Feasibility study
- Executive design development
- Assistance in system development
- Assistance in the bureaucratic procedures relative to the project
- Work managing
- Customer assistance during procurement phase
- Preventive measures
- Design analysis and bureaucratic procedures for the jobs out of our scope of implementation.

EXXON Sakhalin Island

Atyrau - Kazakhstan Hotel River Palace

COMMERCIAL

Services

- AHU supply
- Hydraulic material supply
- Air clearing units supply
- Supply of electronic components for safety
- Supply of electronic devices related to residential, civil and industrial structures.

New Ionic Monaco

Kazakhstan Astana

Kazakhstan Astana

Congo - Djeno

OPERATING

Services

Provision of experienced staff for commissioning, start up and maintenance of air conditioning systems.

Supply of experienced staff for commissioning, start up and maintenance of electrical and automation systems.

Supply of experienced staff for commissioning, start up and maintenance of security systems.

Kazakhstan - Kashagtan

LOGISTICS

KRB Ltd can provide assistance in logistics issues (transportation, customs clearance and national regulations) in the European, Arab and former URSS, as well as in most of African countries.

Kazakhstan Aksay

Pesaro Fabbrina S.r.l.

Congo - Ngoio

KRB REFERENZE

Below are some references, referring to contracts involving our Company in design, consulting, management, material procurement and technical personnel provision for air conditioning, fire safety, security, electrical and engineering systems, installed in rooms or structures designated for private, commercial and industrial applications.

- Centro Medico Salus – Pesaro (sala operatoria, sala degenza, sale visita)
- Auditorium Pedrotti – Fondazione Rossini - Pesaro
- Hotel Beaurivage – Pesaro
- Hotel Des Bains – Pesaro
- Hotel Continental – Senigallia
- Hotel Gala – Pesaro (impianto a dislocamento relativo a sale conferenze)
- Boutique Iceberg – Milano
- Boutique FIVE – Brescia
- Liceo Scientifico “G. Marconi” – Pesaro (impianto rilevazione ingresso persone non autorizzate)
- Studio Renato ZERO – Roma (studio di registrazione)
- Studio FONCLEA – Roma (studio di registrazione)
- Camera di Commercio di Pesaro, Quartiere Fieristico – Pesaro (impianto di ventilazione / ricambio aria)
- Curia Vescovile Pesaro – Palazzo Pesaro (impianto di deumidificazione aria)
- Fabbrina Srl – Pesaro – Italia – (consulenza, fornitura materiali impianto fotovoltaico)
- Istituto Intesa San Paolo – Milano - (progettazione, consulenza MEP)
- Massari Iginio – Milano - (progettazione, consulenza MEP)
- Hotel Liebd – Kiev – Ucraina (studio di fattibilità HVAC system)
- Free Shop Aeroporto Internazionale Atene – Grecia (progettazione e realizzazione armadi umidificati)
